

## Have you ever dreamed . . . .

. . . Of waking up in the morning to the sounds of Canada Geese honking outside your cabin?

. . . Or sitting on a raised deck with your morning coffee and watching ducks and beaver swimming in a pond just a few feet away?

. . . And how about going for a hike down a wilderness trail and coming upon a doe and her fawn unexpectedly.

And, for winter guests, there are over 500 km of groomed snowmobile trails surrounding River Trail.

These trails will take you through forests, across fields or along the breathtaking crest of the Narrow Hills Esker.

At our large, fully modern cabin all this and more is possible. Located in East-central Saskatchewan on the very edge of the Northern Boreal Forest wildlife is plentiful and the relaxing is easy.

## River Trail Accommodation . . . .

Your cabin at River Trail is built on 2 levels. For ease of entry there are outside doors on both levels.

With full kitchen facilities, 2 bathrooms and 3 bedrooms, there is plenty of space for you and your family or friends.

There are also 2 hide-a-beds downstairs and a small, unattached bunkhouse out back providing accommodation for groups as large as 15 people.
